

# BRAVE

## NEW WORLD • AG TO 2030

## National Conference 2018

28-30 November 2018 • Sydney

In November 2018 the AG Institute Australia will deliver the AG Institute National Conference 2018. The Conference will be held Rydges World Square, Sydney on 28 – 30 November 2018.

Informed by overall theme, *Brave New World: Agriculture to 2030*, the event will focus on practical, business focused presentations across 4 key themes, the inaugural Ag Institute National Conference will bring together decision makers and professionals across Australian agriculture to learn, network & share their view of the future.

### Key themes:

- Challenges Facing Australian Agriculture
- Controlling Supply Chains
- Machine Learning, Big Data, Quantum Computing & Biotech
- Human Touch – Beyond the Bottom Line

### A must attend event:

- Ensure your agribusiness is prepared for the coming disruption to the industry in global trade, emerging technology, sustainable farming and providence.
- Take away practical strategies to run your agribusiness now and into the future
- Network with your peers, engage with prospective employers and employees

### About the Ag Institute Australia
